Headteacher: James Harding-Mbogo

Dear Parent/Carer,

Our Year 9 students will soon be reaching a very important stage in their education where they need to make decisions about which subjects they will continue to study during Key Stage 4 in Years 10 and 11. The options process is exciting but requires very careful decision making.

As our school continues to expand, Nova Hreod Academy is suitably positioned to offer a qualification in Engineering to pupils from 2025 onwards. Engineering is an increasingly innovative and exciting area to work in. It affects every aspect of modern life, and we believe it important to offer our scholars the opportunity to explore a range of new technologies, in addition to helping them to gain practical skills and understanding to inspire a lifelong interest in engineering.

Before the formal options process begins after Christmas, we are seeking to gauge pupil and parental interest for the possibility of taking an engineering qualification as an option. We have set up and kindly ask for you to complete [this short survey](#) to assess overall interest in the proposal. As with every options process, we cannot guarantee that particular courses will run in KS4 every year.

Yours sincerely

Dr S Spreadbury
